- Fixed checking for recursive feature in option cell.

Feature View

Options

Code	Description [en-GB]	Features
1	15	BLUE

CET Designer

Feature selection is not allowed due to it referencing a feature, that is referencing the feature selected. This would cause an unstopable circular behavior.

OK

- Fixed SKU number to allow sku below a functional option.

The screenshot displays a CAD software interface with several key components:

- Main Table:** A table with columns: #, Part Number, Options, Description, **SKU** (highlighted with a red box), Quantity, Upcharge, List, Sell %, and Ext. Sell. The first row shows '1', 'h1', an empty cell, 'h137' (highlighted with a red box), '1', and '\$0.00'.
- Navigator:** A tree view on the left showing a hierarchy of features. Several nodes are circled in red: '1 - 1', '3 - 3', '7 - 7', and '8 - 8'.
- Features Table:** A table with columns: Code, Description [en-US], Default Option, Functional Sel., and **SKU Sel.** (highlighted with a red box). The table contains 7 rows of data.
- Options Table:** A smaller table at the bottom right with columns: Code, Description [en-US], and SKU Sel. It contains 2 rows of data.
